

Lima- June 23, 1953

Dr. E. Hohwi Christensen,
Department of Physiology,
Kungliga Gymnastiska,
Centralinstitutet,
Stockholm, Sweden.

Dear Dr. Christensen :

I am planning to visit
Stockholm during the first week of September. I presume
you will be away attending the Physiological Congress in
Montreal, but will appreciate if you inform me whom I
may contact to have the privilege of visiting your labo-
ratory.

I remember your visit to Peru in 1933 or 1934. We are
still working in high altitude physiology and I am grea-
tly interested in getting more acquainted with your im-
portant work.

Sincerely yours,

Dr. Alberto Hurtado
