Dr. E. Lovell Becker,  
Medical College of Virginia,  
Hospital Division,  
1200 East Broad St.,  
Richmond 19, Virginia.

. Dear Dr. Becker :

Please accept my appreciation for your kind remittance of the letter of Mr. Brown at the Brinkman Company concerning the work with capillaries. The information is very helpful.

I am working now as much as I can in the writing of the reports and the monograph. My plans are to start the study of human capillaries as soon as possible and when we get the new equipment from U.S. I am sure that many more questions will be sent to you at that time.

Lozano is in New York at this time and I hope you are able to see him in the near future.

With best regards to Mrs. Becker and you,

Dr. Alberto Hurtado
