BANTING AND BEST DEPARTMENT OF  
MEDICAL RESEARCH

December 15, 1950.

Professor Alberto Hurtado,  
Catedra de Fisiopatologia,  
Faculty of Medicine,  
Lima, Peru, South America.

Dear Professor Hurtado:

Professor Houssay of Buenos Aires has invited me to give a series of lectures in Argentina in March, 1951. My wife and I expect to go by way of Lima and to spend a day or two there. We will probably be arriving in Lima on the 25th or 26th of February and would be very pleased indeed to see you. The International Health Division of the Rockefeller Foundation have very kindly offered to help us in making some travelling arrangements. Some years ago I was one of their Scientific Directors for a few years. We are naturally looking forward with the greatest pleasure to catching a glimpse at least of Peru.

With kindest personal regards.

Yours sincerely,

*E. A. Best,*
