Dear Dr. Hurtado:

It was with great pleasure that I heard from your nephew that you were to give the Dunham lectures at Harvard this spring. I for one will be looking forward with a great deal of interest to your account of work from your laboratory in the past few years.

I also trust that you will permit us to repay a small part of the hospitality which was ours on our visit to Lima last summer.

Looking forward to seeing you upon your visit to Boston in the spring,

Sincerely yours,

J. H. Currens
