Dear Doctor Hurtado:

I cannot begin to tell you how disappointed I am that I shall be out of the city on the evening of the Dunham Lectureship Dinner and during your first two lectures. Both Mrs. Thorn and I are looking forward to meeting your family on our return and I believe plans have been made with Dr. and Mrs. Ross McFarland for us all to get together one evening. I am very anxious to talk with you about our plans for the trip to South America in the fall as I hope to be able to spend some time in Lima.

It is a very great pleasure to have you with us and I know how eagerly everyone is looking forward to your lectures.

Sincerely yours,

*George W. Thorn*
