September 22, 1986

Alberto Hurtado, M.D.  
Research Director  
High Altitudes Research Inst.  
Peruvian University of Medical  
& Biological Sciences  
Lima, PERU

Dear Dr. Hurtado:

In 1987 for the second time in its history, the American Industrial Hygiene Conference will be held outside the United States. With Montreal, Canada as the host, we plan to emphasize the International nature of industrial hygiene with the theme "Work and Health Around the World".

We are calling upon you, the International leaders in worker health protection who already have been recognized for your contributions as Yant Memorial awardees, to help develop an opening session for the conference. Traditionally, the opening session includes short welcoming addresses from local or governmental officials followed by three or four talks by outstanding persons who attempt to inspire the conference. It is in the selection and invitation of these few papers that we seek your advice. Understandably, we cannot use all the suggestions made by Yant awardees but we do need comments from you, our International contacts.

Please submit your comments to Emil Christofano promptly since we hope to finalize the opening session at a conference meeting on October 28, 1986. We do look forward to hearing from each of you and thank you in advance for your cooperation.

Sincerely,

*Emil Christofano*  
Emil E. Christofano, CIH, PE

*Vernon Carter*  
Vernon L. Carter, Jr., DVM
