Dr. Alberto Hurtado  
Av. Brasil 2168  
Lima, Peru

Dear Alberto:

At this time, we are writing to ask you whether you could give us an estimate as to the approximate number of physicians who might be planning to come to our Congress. As yet we have no very good idea as to possible attendance, and for that reason we would like to have you acquaint us as quickly as possible with: (1) the number of physicians who are coming from your country; and (2) the number of wives and other members of the family who might be coming.

I realize that this will be difficult, but all we want is as good an estimate as you can give at this time.

Sincerely,

  
William Dameshek, M. D.

WD/jr
